

An Innovative Solution

You need to keep close control of your financial data. You should know where you stand at all times. To advise you, your accountant needs to quickly access your books.

When your data is in your office, how does your accountant quickly get the information necessary? The simple solution is e-Accounting.

e-Accounting helps businesses of any size keep their financial data and accounting software in a safe, secure environment—our protected data center. It allows access to that data to permitted users regardless of their location or local computing platform, through the Internet. Both you and your accountant or bookkeeper can access your books in real time from office, home, or on the road. No more hassles transferring files!

e-Accounting empowers your accountant or bookkeeper to be more efficient and effective as a financial advisor.

“One April 15th, because of instant access to clients’ files through e-Accounting, I answered urgent questions from five clients in 15 minutes!”

***Floyd Wellons, Preferred Financial Workgroup
Minneapolis, Minnesota***

How It Can Work for You

Adopting e-Accounting is easy and affordable. You and your accountant get connected to our secure data center one of three ways:

- **Accounting Station:** one copy of QuickBooks® Pro, Premier Accountant, or MyBooks Professional for as little as \$1.83 per day
- **Virtual Desktop:** versatile way of running multiple applications such as QB, Peachtree, MS Office, Excel, ACT!, etc. starting at \$2.53 per day per user
- **Dedicated Hosting:** custom server options for 10 users for as little as \$1.33 per day per user

When you add other software to the platform, you create an affordable computing-business network!

Have Confidence Your Books are Accurate and Up-to-date!

e-Accounting is the solution to managing critical financial data with these benefits:

- Easy access to the latest, accurate, and real-time copy of your books
- Allow yourself and your accountant anytime-anyplace access to your financial data
- Consult with your accountant while in same files whether you use QuickBooks®, Peachtree, Great Plains, MyBooks Professional, or Creative Solutions
- Work from your office, home, or on the road and your accountant can too--doing your books!
- Get quick answers and responses from your accountant or bookkeeper through instantaneous file access
- Use a single application license and still work from any computer
- Receive software training from your accountant through our remote-control *shadowing* feature
- Obtain virus protection and nightly automatic backup of all files and data on the system
- Reduce cost and hassle of IT management
- Receive 24/7 technical support
- Put most or all your business software on the platform and create a wide-area network

“Since I have been using e-Accounting for my sporting goods store, I am finding it is the most convenient, cost-effective, and hassle-free system.”

Min Lee, BNI Sports

“Compared to QuickBooks® Online Edition, your e-Accounting service is superior. I get the real QuickBooks® with the added advantage of fast-anytime access to my QB files from any web-enabled computer.

Tom Weber, Delessio Market, San Francisco, CA
