

An Innovative Solution

You need to keep close control of your financial data. You should know where you stand at all times. To advise you, your accountant needs to quickly access your books. When your data is in your office, how does your accountant quickly get the information necessary? The simple solution is Miller Giangrande's Present-Value Accounting.

Present Value Accounting works with e-Accounting—a system that enables businesses of any size keep their accounting data in a safe, secure environment: e-Accounting's protected data center. It allows access to that data to permitted users regardless of their location or local computing platform, through the Internet. Both you and Miller Giangrande can access your books in real time from office, home, or on the road. No more hassles transferring files!

e-Accounting empowers your Miller Giangrande accountant to be more efficient and effective as a financial advisor.

"In working with Miller Giangrande, their dependable and efficient online service allows me to be on top of my business. Their service is an asset for anyone determined to succeed."

Piaggio,
Owner of Gaucho Grill
Brea, California

Have Confidence Your Books are Accurate and Up-to-date!

When you adopt Present Value Accounting with e-Accounting you get reliable management of your critical financial data and these benefits:

- Easy access to the latest, accurate, and real-time copy of your books
- Allow yourself and Miller Giangrande anytime-anyplace access to your financial data
- Consult with Miller Giangrande while in the same QuickBooks® files
- Work from your office, home, or on the road—and Miller Giangrande can too—doing your books!
- Get quick answers and responses from Miller Giangrande through instantaneous file access
- Use a single application license and still work from any computer
- Receive software training from Miller Giangrande through the remote-control *shadowing* feature
- Obtain virus protection and nightly automatic backup of all files and data on the system
- Reduce cost and hassle of IT management
- Receive 24/7 technical support
- Put most or all your business software on the platform and create a wide-area network

How It Can Work for You

Adopting PVA is easy and affordable. Through Miller Giangrande, you get connected to e-Accounting's secure data center one of three ways:

- **Accounting Station:** one hosted version of QuickBooks® Pro
- **Virtual Desktop:** versatile way of running multiple applications such as QuickBooks®, MS Office, Excel, ACT!, and more
- **Dedicated Hosting:** custom server options for volume users

When you add other software to the platform, you create an affordable computing-business network!

"Since I have been using e-Accounting for my sporting goods store, I am finding it is the most convenient, cost-effective, and hassle-free system."

Min Lee, BNI Sports

"Compared to QuickBooks® Online Edition, your e-Accounting service is superior. I get the real QuickBooks® with the added advantage of fast-anytime access to my QB files from any computer that has Internet access."

Tom Weber, Delessio Market, San Francisco, CA
